

**NKOSITHANDILEB SOLAR**

# **Solar modules exported and installed in Tampere Finland**

## Overview

---

How does renewables Finland track the development of solar power in Finland?

Renewables Finland currently maintains three up-to-date lists and statistics that track the development of solar power in Finland. The first is an annual statistic covering operational solar power projects, while the second lists projects under construction and third lists .

Why should you choose solar Finland?

Solar Finland and its subsidiaries with strong long-term background are experts in all aspects of solar energy. Our extensive know-how and experience of over 40 years make it possible to develop in different areas making our products and services competitive in the solar energy markets both domestically and abroad.

Who makes Salo solar panels?

Salo Solar designs, sells and builds comprehensive turnkey solar electricity systems. Salo Tech manufactures and sells high-quality Finnish SALO® solar panels. Salo Automation designs and builds production lines and machines meant for the production of solar panels. Salo Energy builds solar parks and invests in local solar electricity.

How do I order a project list from renewables Finland?

The project list can be ordered in excel format from Renewables Finland as an individual order (€ 790 + VAT) or as annual subscription (€ 1490 + VAT inc. 2 list per year) The list is free of charge for Renewables Finland corporate members and can be found on the Extranet (you can get the Extranet login link from [jasenpalvelut@suomenuusiutuvat.fi](mailto:jasenpalvelut@suomenuusiutuvat.fi)).
