Solar power with grid backup in Melbourne

Overview

Where can I get solar power in Melbourne?

Visit our solar power show room in Melbourne. Solar Charge is Melbourne solar power system designer and supplier. Get your home Grid Connect Solar power, Off Grid Solar power designed and installed for you. Visit our solar power show room in Melbourne.

Is Melbourne a good place to install solar panels?

Melbourne's climate is well-suited for solar power. Even on cloudy days, your panels will still generate electricity. Sydney solar panel output: Note: Most homes are equipped with systems of 6.6 kW or larger; systems under 5 kW are becoming increasingly rare in Melbourne. Save around \$1,300 to \$2,600 every year on electricity bills.

Who is solar charge Melbourne?

Solar Charge Melbourne uses our 40 years experience and proven reliability to deliver the solar electricity Grid Connect system you want for your home, business and school. We use the best Australian supplied solar equipment to deliver the solar electricity power you want. Businesses can turn to Solar Charge to reduce their Electricity Bills.

Why should you choose a hybrid solar system in Australia?

Australia's electricity grid, while advanced, isn't immune to outages. Whether due to bushfires, storms, or maintenance work, losing power is more common than most realise. A hybrid solar system with grid and battery backup ensures that your lights stay on, even when the grid goes down.
