# **Solar powered devices factory in Mexico**

## Overview

---

Who manufactures solar panels in Mexico?

2. Maxeon Solar Technologies (Singapore/USA) With 93% of Mexico's module production capacity, Maxeon continues to expand its manufacturing presence in the country. Their premium Interdigitated Back Contact (IBC) technology commands premium prices in the commercial and residential segments.

Does Mexico have a solar energy sector?

Mexico's solar energy sector is growing at an unprecedented rate, establishing the country as a leading player in the renewable energy market. The commitment to clean energy has seen an increase in domestic manufacturing of solar panels, thus boosting the country's economic potential and self-sustainability.

Why should you choose a solar panel manufacturer in Mexico?

Mexico's solar energy sector is experiencing rapid growth, driven by rising demand for clean energy and strong government support. As the country continues to embrace renewables, choosing the right solar panel manufacturer in Mexico has never been more crucial—whether you're a developer, distributor, or EPC contractor.

Where are SunPower solar panels made?

SunPower, an American company with manufacturing operations in Mexico, is well-known for its high-efficiency solar panels. Based in San Luis Potosi, SunPower's Mexican facility demonstrates the company's commitment to global sustainability and renewable energy.
