Solar powered water pumps in New Zealand

**18650 3.7V
Li-ion
RECHARGEABLE BATTYRY**

2000mAh

Overview

Where can I buy solar water pumps in New Zealand?

Watertech Plus is committed to providing the widest range of quality equipment and associated hardware to meet your needs. Shop for reliable, durable, and efficient solar water pumps online at Watertech Plus—your trusted source for sustainable water solutions in New Zealand.

What are the best water pumps NZ has to offer?

The best water pumps NZ has to offer makes use of solar power systems. Increase the supply of water and benefit from the abundance of clean, alternative energy with Lorentz pumps. If you have an excellent water source within your farm that's beyond the reach of any power source, it might well be worth a look.

What is a solar-powered water pumping system?

Each solar-powered water pumping system is made up of a Lorentz pump end, brushless, 3ph pump motor and a controller. This modular concept keeps all the electronics above ground providing ease of access for simple servicing which in turn makes these very economical to own.

Can a Lorentz solar pump help a New Zealand farm?

Remote water sources will never again be a problem for New Zealand farms. With a Lorentz solar pump, you can draw water from anywhere and any source, or work with an irrigation system you already have and operate. With efficient water supply and management in place, good land is used to its full capacity.
