

**NKOSITHANDILEB SOLAR**

# **Solar roof tiles and home batteries**

## Overview

---

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

Can a solar roof power a home?

Install Solar Roof and power your home with a fully integrated solar and energy storage system. The glass solar tiles and steel roofing tiles look great up close and from the street, complementing your home's natural styling. Schedule a virtual consultation with a Tesla Advisor to learn more.

How does a solar roof work?

Glass solar tiles and architectural-grade steel tiles, vent covers and ridge caps come together to form a roof that is both durable and powerful. Combine your Solar Roof with Powerwall—a home battery featuring an integrated solar inverter for increased efficiency and dependable energy storage 24/7.
