# Solax inverter price

## Overview

---

What is a Solax inverter?

The Solax inverter is an essential component in renewable energy systems, offering reliable and efficient power conversion from solar energy into usable electricity. Renowned for their innovation and performance, Solax inverters play a crucial role in optimizing solar energy utilization for both residential and commercial applications.

How many kW does a Solax solar inverter have?

Their single-phase hybrid inverters range from 3kW to 6kW while the 3-phase ones start at 3kW and go up to 30kW. If you'd like to examine it, here's a link to the Australian SolaX warranty. There are two SolaX inverters that only have 5-year warranties: All their other solar inverters have either 10 or 12-year warranties.

Does Solax power offer a hybrid inverter?

SolaX Power offers 2 hybrid inverter solutions for those interested in energy storage. How energy storage enables greater self-consumption of solar electricity.

Who installs Solax batteries & inverters?

SolaX products are designed, tested and manufactured to the highest global standards, obtaining more than 500 certifications. As Certified Solax Installers, Deege Solar are approved to install the full range of SolaX battery storage solutions and inverters.
