What's it like to attend Solar & Storage in Spain?

It was a fantastic event, I'm much more informed about the state of solar and storage in Spain than I was before attending. It is a very good place to sense the state of the art of solar technologies and business. A very interesting event focused on solar and storage, many interesting speakers and a very good location.

What is Spain's energy storage strategy?

Spain's government has approved an energy storage strategy that it says will put the country "at the forefront" of what is being done in Europe and help it move towards its 2050 climate neutrality target. The roadmap foresees the country ramping up its storage capacity from the current 8.3GW level to 20GW by 2030 and then 30GW by 2050.
