Sri Lanka Solar Container 20MWh

Overview

What is Solar Resource Atlas of Sri Lanka?

The Solar Resource Atlas of Sri Lanka is an important addition to the existing knowledge on solar resources of Sri Lanka. The first solar atlas of Sri Lanka was prepared by the National Renewable Energy Laboratory (NREL) of USA, in 2005, as the Wind and Solar Resource Atlas of Sri Lanka and Maldives.

How much solar radiation does Sri Lanka receive?

Sri Lanka receives significant amount of solar radiation across all geographical regions. The Global Horizontal Irradiance (GHI) varies between 1,247 kWh/m² to 2,106 kWh/m². It is interesting to note that the intensity of solar irradiation in lowland areas is high compared to mountainous regions.

Who created the first solar atlas of Sri Lanka?

The first solar atlas of Sri Lanka was prepared by the National Renewable Energy Laboratory (NREL) of USA, in 2005, as the Wind and Solar Resource Atlas of Sri Lanka and Maldives. Such attempts in exploring solar resources of the country provided valuable information leading to gross estimates of solar potential.

Why should you choose J Lanka solar energy EPC service provider?

J Lanka the leading solar energy EPC service provider offers solar solutions designed to maximize the return on investment. With a highly skilled EPC team consisting of expertise in engineering and technology, each project generates greater value with different customer experience.
