Overview

Why did Syria sign a \$7 billion energy deal?

(Reuters) Syria signed a \$7 billion energy deal on Thursday with a consortium of Qatari, Turkish and US companies as it seeks to revive the war-torn country's crippled power sector. The agreement was sealed at the presidential palace in Damascus in the presence of President Ahmed al-Sharaa and US ambassador Thomas Barrack.

What does Syria's new energy deal mean for the energy sector?

Syria: Syria has signed a \$7 B energy agreement with a Qatar-led consortium aimed at revitalising the country's electricity sector and more than doubling its generation capacity. The deal, signed in Damascus, will deliver 5,000 MW of new capacity through a mix of gas and solar projects.

What is a \$7 billion deal with the Syrian government?

The Syrian government has signed a \$7 billion memorandum of understanding with a consortium of international companies led by Qatar-based UCC Holding to develop major power generation projects, in a deal endorsed by President Ahmed Al-Sharaa.

How will a Qatar-led consortium boost Syria's electricity capacity?

Qatar-led consortium will add 5,000 MW via gas and solar projects, doubling Syria's electricity capacity and creating over 300,000 jobs nationwide. Syria: Syria has signed a \$7 B energy agreement with a Qatar-led consortium aimed at revitalising the country's electricity sector and more than doubling its generation capacity.
