Tallinn site energy storage BESS project bidding

Overview

What is Estonia's Auvere Bess project?

Estonia's Auvere BESS project is designed to participate in both the electricity exchange and other energy markets to ensure the security of electricity supply. According to Eesti Energia board member Kristjan Kuhi, the battery is able to respond very effectively to fluctuations in the power system.

Will Eesti Energia install a grid-scale battery energy storage system?

Eesti Energia, a utility based in Estonia, will install the country's first grid-scale battery energy storage system (BESS).

Is a Bess project nearing a commissioning?

1MW BESS pilot project in nearby Lithuania, which was followed by a portfolio of 200MW, thought to now be nearing their commissioning. Image: Litgrid. Eesti Energia, a utility based in Estonia, will install the country's first grid-scale battery energy storage system (BESS), it announced yesterday.

Where is Estonia's largest battery storage facility located?

The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.
