Tax item category for energy storage power supply

Overview

Who can install energy-generation & storage property?

Tax-exempt and governmental entities, such as state and local governments, Tribes, religious organizations, and non-profits may install energy-generation and storage property to meet energy demands, reach clean energy transition goals, or save money on energy costs.

What is the base tax credit for energy projects?

- For projects beginning construction on or after Jan. 29, 2023 or where the maximum net output is 1 MW or greater, the base tax credit is 6% of the taxpayer's basis in the energy property or qualified facility (or energy storage technology).

Is a stand-alone energy storage a qualified person?

Notably, no NAICS code describes stand-alone energy storage, and there is no published guidance on whether a stand-alone BESS could be a qualified person. Stand-alone BESS is subject to property tax. Texas offers an incentive program referred to as chapter 312 to attract new capital investment that has benefitted renewable development.

How does tariff risk affect a battery energy storage system (BESS) project?

Mitigating tariff risk in battery energy storage system (BESS) projects is crucial for ensuring project financial viability, as tariff changes can significantly affect cost structures and overall project economics.
