Transformer breaker in China in Algeria

Overview

Who is United transformers electric company (UTEK)?

United Transformers Electric Company (Utec), a subsidiary of Bawan, was founded in 2001 as a limited liability company. Over the past few years, Utec has built a strong presence in the local, regional and international markets as a leading company in the field of manufacturing distribution transformers.

What is a pole-mounted distribution transformer?

Pole-mounted distribution transformers are mounted above ground on poles. These transformers are manufactured to standard designs, primarily for power distribution companies. These transformers typically service urban and rural residential and commercial loads.

What is a pole mounted transformer?

Utec's Pole Mounted Transformers are oil immersed hermetically sealed type which are designed, manufactured and tested according to IEC 60076 and its equivalent standards. The tank is designed to accommodate expansion of oil during loading through the use of corrugated steel sheets.
