

NKOSITHANDILEB SOLAR

Tunisian solar Energy Storage Configuration Company

Overview

What are grid-connected solar PV systems in Tunisia?

Grid-connected solar PV systems are recent in Tunisia. Their installation started upon the issuance of Law No. 2009-7, which authorises self-production of electricity from renewable energy sources. Grid-connected solar PV has mainly been implemented through the Prosol électrique programme, initiated in May 2010 by ANME and STEG.

How many solar collectors are installed in Tunisia?

From the commercialisation of SWH systems in 1982 until the end of 2018, the cumulative total area of solar collectors installed in Tunisia is estimated at 1 040 000 m², as shown in Figure 28.

What is TuNur energy doing in Tunisia?

In Tunisia, Nur Energie is developing the world's first CSP solar export project between North Africa and Europe. For more information about the TuNur project please visit the TuNur company website: .

Will Tunisia's first large-scale solar export project go to Italy?

Till Stenzel, COO of Nur Energie presented to an audience of over 75 energy professionals and policy-makers its project plans for a first large-scale solar export project from Tunisia to Italy. In Tunisia, Nur Energie is developing the world's first CSP solar export project between North Africa and Europe.
