Overview

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) or uninterruptible power source is a type of continual power system that provides automated backup electric power to a load when the input power source or mains power fails.

Who is Power Solutions Sdn Bhd?

Since its establishment in 1986, Power Solutions Sdn. Bhd has been a trusted company incorporated in Malaysia. We specialize in offering comprehensive solutions for Uninterruptible Power Supply (UPS), Voltage Regulators, Frequency Converters, and Batteries.

Why should you choose a modular UPS system in Malaysia?

Designed for homes, offices, and industries in Malaysia, these advanced UPS systems ensure uninterrupted power, protect sensitive equipment, and adapt to growing energy needs. Perfect for data centers, factories, and healthcare, our Modular UPS provides clean, stable electricity and minimizes downtime.

Why should you choose a true online UPS system in Malaysia?

Engineered for homes, businesses, and industries in Malaysia, these advanced UPS systems provide clean, stable electricity to protect sensitive devices and critical equipment. Perfect for data centers, IT systems, and medical devices, our True Online UPS ensures zero downtime with pure sinewave output and generator compatibility.
