Overview

What is CATL Tener energy storage?

To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy storage solution. It breaks the limitations of power capacity and product transportation, and makes breakthroughs in space utilization, energy efficiency, and cost.

Is CATL Tener energy storage a Bess system?

"CATL has always been at the forefront of the energy transition," said Amanda Xu, CTO ESS & President of ESS Europe CATL. "To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy storage solution.

How much does a container weigh?

Each container weighs less than 36 tons and meets transportation standards in 99% of countries worldwide, the manufacturer said. This significantly improves the product's transportability, requiring only standard lifting equipment and minimizing the risk of tipping during road transport.

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, TENER Stack, setting a new industry ...

CATL debuts 9MWh TENER Stack, the worlds first ultra-large energy storage system
bines split-design transport compliance, 5-year zero-degradation cells, 20% cost ...

In April 2024, CATL unveiled a 6.25 MWh capacity energy storage system called TENER, promising zero degradation in the first five years of use--the first of its kind.

In April 2024, CATL unveiled a 6.25 MWh capacity energy storage system called TENER, promising zero degradation in the first five ...

MUNICH, /PRNewswire/ -- CATL today unveiled the TENER Stack, the world's first 9MWh ultra-large capacity ...

A 500 MW / 2,000 MWh standalone BESS in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction period, reflecting China's ...

MUNICH, /PRNewswire/ -- CATL today unveiled the TENER Stack, the world's first 9MWh ultra-large capacity energy storage system solution set for mass ...

The world's biggest battery maker unveiled its latest utility-scale battery energy storage product- the Tener Stack - at the Smarter E show. The 9 MWh system supports both ...

Landmark innovation pairs high capacity with flexible transport, redefining large-scale energy storage MUNICH, /PRNewswire/ -- CATL today unveiled the ...

Landmark innovation pairs high capacity with flexible transport, redefining large-scale energy storageCATL today unveiled the TENER ...

For instance, deploying 800 MWh of energy storage using TENER Stack requires about one-third fewer containers than with ...

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, ...

For instance, deploying 800 MWh of energy storage using TENER Stack requires about one-third fewer containers than with traditional 6 MWh systems. This significantly ...

Landmark innovation pairs high capacity with flexible transport, redefining large-scale energy storageCATL today unveiled the TENER Stack, the world's first 9MWh ultra-large

...

Contemporary Amperex Technology Co. Limited (CATL) has launched the world's first 9MWh ultra-large capacity energy storage system, the TENER Stack, at the ees Europe

...

The world's biggest battery maker unveiled its latest utility-scale battery energy storage product- the Tener Stack - at the Smarter E ...

Landmark innovation pairs high capacity with flexible transport, redefining large-scale energy storage MUNICH, ...
