# Ultra-portable 5 000 mAh mobile power bank

## Overview

---

What is Xiaomi 5000 mAh power bank?

(Xiaomi Youpin) Xiaomi launches an ultra-slim 5000mAh power bank with built-in cable, 22.5W fast charging, safety features, and wide device compatibility.

How long does a 5000 mAh power bank last?

This depends on the battery capacity of the device as well as the charging frequency. Generally speaking, a 5000mAh power bank can last approximately 1-2 full smartphone charges. This means if you fully charge your smartphone once a day using a 5000mAh power bank, the power bank can last about 1 or 2 days on average.

Are 5000 mAh power banks the best on-the-Go Charging Solution?

5000mAh power banks offer a compact and reliable solution for charging your devices on the move, providing ample backup power to keep your smartphone or other gadgets charged and operational when you're away from traditional power sources. Anker is showcasing a cutting-edge collection of 5000 mAh power banks as the best on-the-go charging solution.

What is the difference between 5000 mAh and 20000 mAh power bank?

The difference mainly lies in these aspects: Capacity: A 5000mAh power bank can provide around 1-2 smartphone charges, while a 20000mAh power bank can offer approximately 4-8 smartphone charges, given ideal conditions. Appearance: A 20000mAh power bank is physically bulkier due to the need to store more electricity.
