Uninterruptible power supply 55kva

Overview

What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supply (UPS) | Schneider Electric Hong Kong, China. An Uninterruptible Power Supply system provides emergency power when the main source fails, using batteries to ensure a continuous supply. It conditions incoming power, protecting equipment from fluctuations. We offer various UPS power supply types for different needs.

What does a ups do if a power supply fails?

For example, if there is a power failure, a UPS can send a command to switch off the least important loads (such as laser printers) in order to provide a longer backup time for critical equipment. When the power supply is restored, the UPS can send a command to switch these loads back on.

What is ups 57 powercall?

WWW.UPS.LEGRAND.COM CUSTOMER SERVICES UPS 57 UPS PowerCall is the monitoring and remote diagnostics system which provides continuous checking of the UPS via the 24-hour a day, 365 days-a-year link with the control centre. The PowerCall service provides day-to-day support, real-time remote diagnostics and fast on-site response if there are problems.

What is a 3 kVA ups?

UPS up to 3 kVA. Ideal protection for individual workstations, telephone switchboards or home automation applications and even for small service sector companies. The right solution for every context Legrand has a UPS range that it divided into 3 different families.
