Uninterruptible power supply for Jerusalem Hospital

Overview

Why do hospitals have uninterruptible power supplies?

Many hospitals have uninterruptible power supplies dedicated to specific testing bays to ensure a smooth and constant supply of utility power. Navigate outages safely and effectively during emergency situations.

Why do hospitals need a power supply?

Ensure your equipment is readily available – especially in an emergency – with clean, uninterrupted power. Hospitals and healthcare providers strive to diagnose patients' conditions quickly and effectively, often deploying critical equipment that requires a stable and uninterrupted power source.

What is an uninterruptible emergency power supply?

An uninterruptible emergency power supply is an emergency power supply that can supply power without interruption (a power supply that ensures continuity of AC power) even if the commercial power supply is stopped.

What is ups for medical centers & hospitals?

UPS for medical centers and hospitals deliver backup power in emergencies and ensure power conditioning for critical equipment. [Learn more.](#)
