# Victoria Home Microinverter Company

**LFP 12V 100Ah**

## Overview

---

What are the most popular microinverters available in Australia?

Below is our detailed comparison of the most popular microinverters available in the Australian, European, Asian and US markets. Enphase Energy and APsystems are the most well-known microinverter manufacturers, while ZJBeny, Hoymiles & ZJ Beny recently entered the increasingly competitive market.

Who makes the best microinverter?

Enphase Energy and APsystems are the most well-known microinverter manufacturers, while ZJBeny, Hoymiles & ZJ Beny recently entered the increasingly competitive market. The latest models added in 2024 are the new 3-phase IQ8-3P series from Enphase, the new SAJ M2 Series, and the NEO 2000M-X quad micro from Growatt.

Why should you choose Enphase microinverters in Melbourne?

Melbourne residents and businesses opting for Enphase microinverters can enjoy the benefits of enhanced system design flexibility, individual panel monitoring, and improved safety measures. These advantages contribute to the overall efficiency and reliability of solar power systems in the bustling city.

How can microinverters benefit your solar energy system?

Strategic panel placement is key to maximising the benefits of microinverters in your solar energy system. Take advantage of their capability to optimise energy production at the individual panel level by positioning panels in areas with maximum sunlight exposure and minimal shading throughout the day.
