# **Victoria Photovoltaic Container DC Procurement Contract**

## Overview

---

Will GRS build Carwarp solar farm in Victoria?

Spanish group Gransolar says its construction subsidiary GRS has landed the contract to build the 171 MW Carwarp Solar Farm in Victoria, its 14th large-scale project in the Australian market.

How many solar projects will GRS build in Australia?

As previously noted, the Carwarp Energy Park becomes the 14th project GRS has been contracted to build in Australia. In total, this amounts to around 2.1GWdc of capacity. Several large-scale solar PV projects are included in this portfolio.

Is phishing targeting Victorian government contractors & suppliers?

**SUPPLIER PHISHING ALERT:** The Government is aware of an active phishing campaign targeting Victorian Government contractors and suppliers. Cybercriminals are using publicly available procurement information to impersonate Victorian Government officials and send personalised phishing emails.

What does the Fulham solar farm project mean for Australia?

The Fulham Solar Farm project further strengthens the push for renewable energy solutions in Australia, contributing to the country's clean energy transition. Octopus Australia has selected Gransolar Group's contractor, GRS, to construct the \$300 million Fulham Solar Farm hybrid project in Victoria.
