What does wind power insurance for solar container communication stations include

Overview

Does Allianz offer wind power insurance?

Access all policy wording and other documentation. Why choose Allianz?

Wind Power provides flexible insurance with the options of either construction or operational covers. Our engineering, construction and power experts are able to consult at any stage of a renewable energy project and installation.

Why do contractors need offshore wind insurance?

Technical challenges, adverse weather conditions as well as high investment and operating costs are unsettling both contractors and investors. Our solution: insurance for individual, project-related risks targeted at contractors (EPC/T&I), manufacturers and suppliers in the offshore wind industry.

Who is covered by wind park insurance?

Our solution: insurance for individual, project-related risks targeted at contractors (EPC/T&I), manufacturers and suppliers in the offshore wind industry. During the construction and operating phases, wind park projects are generally covered against physical damage, accidents and natural hazards.

What types of risks are covered by renewables insurance?

Variable limits apply. Optional additional cover available for terrorism; business interruption; public and products liability; commercial legal expenses; employers' liability and D&O. Variable limits apply. We can find solutions for a wide range of renewables businesses but our preferred risks are commercial operators:
