# **Which brand of inverter is good and cheap**

## Overview

---

Who makes the best solar inverter?

The X-hybrid Solax solar inverter is one of the best solar inverters in the world, making the company one of the best solar inverter manufacturers in the world. Fimer started its first solar production in 2007 and has become the 4th largest solar inverter manufacturer in the world.

Which solar inverter should I Choose?

The solar inverter you choose will need to be compatible solar system type you are installing: Grid-tied inverters are meant for grid-tied solar systems, the most common system type. They manage a two-way relationship with the grid, exporting solar power to it, and importing utility power from it as required.

Where can I buy a solar inverter?

In the United States, there are several reputable places where customers purchase solar panel inverters for their solar panels, including The Home Depot, SolarEdge, and A1SolarStore. The Home Depot offers a range of solar inverters suitable for various applications such as cabins, RVs, backup power, and residential use.

Are solar inverters expensive?

They're good at dealing with shade (like power optimizers), and have the additional advantage of making your solar system easy to expand. They are, however, the most expensive type of inverter. Learn more: Inverter types compared The solar inverter you choose will need to be compatible solar system type you are installing:
