Which portable power bank is better

Overview

What is the best portable power bank?

1. CUKTECH 30 Power Bank The CUKTECH 30 is that perfect middle ground between a portable power bank and a mini power station. It's got a massive 40,000 mAh of capacity, which is more than enough for charging literally all your devices many times over on long haul flights.

Which power bank is best for iPhone?

1. Anker MagGo Power Bank (10K, Slim) The Anker MagGo Power Bank (10K, Slim) is our top pick for a reason: it combines shockingly good performance with a premium, portable design. Its charging capability is its standout feature, proving to be the fastest MagSafe power bank we've ever tested, capable of charging an iPhone in under two hours.

Should you invest in a portable power bank?

The good news is you can prepare for—and avoid—these stressful scenarios by investing in a portable power bank. Also known as mobile chargers or battery packs, these nifty gadgets serve as a lifeline to your dying electronics by recharging battery power when needed.

Should I buy a power bank or a portable charger?

On the whole, yes. I've tested hundreds of power banks and portable chargers from a myriad of companies, and as long as you steer clear of the cheap no-name junk that you might find in dollar stores and gas stations you should be safe. You no doubt noticed I said "should" there. Let me explain what I mean.
