# Which telecommunications operator in Lisbon has more base stations

## Overview

---

How many base stations in Portugal have 5G?

Since the end of the first half of 2022, ANACOM has been reporting quarterly on progress in the implementation of these latest-generation mobile communications networks. At the end of 1st quarter 2024, according to information reported by operators, there were 9,999 base stations in Portugal with 5G technology.

Which network operators are the best in Portugal?

There are three network operators to choose from: MEO, Vodafone, and NOS. When it comes to subscribers, MEO leads the way with around 42% of the market share. Operated by the former state-controlled Altice Portugal, MEO has historically been dominant in the Portuguese market.

What is the 'Portugal Telecom operators country intelligence report'?

Explore regulatory impacts and competitive dynamics driving 5G growth. Dublin, J(GLOBE NEWSWIRE) -- The "Portugal Telecom Operators Country Intelligence Report" report has been added to ResearchAndMarkets.com's offering.

Which telecom company has the fastest speeds in Portugal?

NOS markets 93% 5G population coverage and the fastest speeds in Portugal. Vodafone differentiates in enterprise through international MPLS and private-network expertise. Digi Portugal's Nowo acquisition injects price pressure yet its Portugal telecom market share remains below 3% so far.
