in Nepal**

Overview

What is a Deye 16kw hybrid inverter?

Product Overview The Deye 16kW Hybrid Inverter is a powerful and versatile inverter designed for both residential and light commercial solar energy systems. With a high capacity of 16kW, it maximizes solar energy self-consumption, reducing grid reliance and offering seamless energy management for both on-grid and off-grid applications.

How does a Deye full series inverter work?

The battery can also be charged by the diesel generator to ensure uninterrupted supply in the event of grid blackout. It is equipped with an RS485 / CAN port for battery communication. Thanks to the smart monitoring platform, Deye full series inverter products support remote shutdown immediately when an accident occurs.

Does Deye full series inverter support remote shutdown?

Thanks to the smart monitoring platform, Deye full series inverter products support remote shutdown immediately when an accident occurs. Setting parameters and FW updates remotely makes PV plant O&M easier. Max. charging/discharging current of 290A. DC couple and AC couple to retrofit existing solar system.

What is a 16kw solar power system?

With a high capacity of 16kW, it maximizes solar energy self-consumption, reducing grid reliance and offering seamless energy management for both on-grid and off-grid applications. Its robust transformer isolation design and support for up to 10 units in parallel make it a reliable choice for users seeking an efficient, scalable solution.
