# **Wholesale usb c power station in Brazil**

## Overview

---

Who makes AC/DC chargers in Brazil?

A global leader with localized production of DC fast chargers (e.g., Terra 184) in Brazil. Offers EVlink AC/DC chargers, with local assembly capabilities supporting Brazil's domestic market. Supplies VersiCharge AC and DC chargers, contributing to both public and private EV infrastructure.

Does Brazil have an EV charging market?

Brazil's EV charging market is at an early inflection point, with strong momentum driven by regional incentives and rising EV demand. Local champions (e.g., WEG, Elettra/BYD) and global players are establishing a robust domestic manufacturing and service base.

How many EV charging points are there in Brazil?

Brazil's EV charging market is in a nascent but rapidly growing phase. As of mid-2025, there are an estimated 4,500-5,500 public charging points, growing fast but insufficient for mass EV adoption. AC Level 2 (7-22 kW): Most widely deployed due to affordability and ease of installation.

Is Brazil a good place to invest in EV charging?

Import Reliance: While local assembly grows, critical components (e.g., power electronics) remain import-dependent. Brazil's EV charging market is at an early inflection point, with strong momentum driven by regional incentives and rising EV demand.
