Overview

What is the battery capacity of Xiaomi Solar Outdoor Camera bw400 pro?

*10000mAh refers to the typical value of Xiaomi Solar Outdoor Camera BW400 Pro's battery capacity. *Data obtained from 70mai AI Lab. Actual results may vary. *"Self-sufficient" requires solar panel to receive two or more hours of direct sunlight per day under standard scenario conditions (recording 20 times per day).

Does Xiaomi BW500 have a solar panel?

Here, Xiaomi really deserves a thumbs up. I tested the BW500 without the solar panel and got almost a month of battery life on a single charge. But once I plugged in the Xiaomi solar panel, it was like giving a senior citizen an electric scooter – the camera came to life! I even drained it to 32%, and it charged back up to 100% in just three days.

How long does Xiaomi outdoor camera BW500 last?

In terms of its battery, the camera has a 10,000mAh battery which is claimed to last for six months. The camera features an algorithm that offers low-power technology and adjusts the battery usage according to the scene being captured. The Xiaomi Outdoor Camera BW500 has a built-in eMMC 32GB storage and also supports cloud storage.

Is Xiaomi outdoor camera BW500 available in China?

The Xiaomi Outdoor Camera BW500 has been released in China. The new outdoor camera offers a battery life that is up to 6 months and also supports solar charging. Recently Xiaomi announced the 5W solar panel with USB-C cable for the Xiaomi Outdoor Camera BW500 and BW300. The BW500 outdoor camera will be available via crowdfunding starting on May 29.
